

"Success is liking yourself, liking what you do, and liking how you do it."

– Maya Angelou

## Why is Work Style Critical for Stream Selection?

Work style reflects how you behave, collaborate, adapt, and thrive in a professional setting. While personality reveals your internal traits, work style is their outward expression in daily tasks. It influences your comfort with structure, authority, change, independence, and collaboration, and determines where you work most effectively. Our model, **APO**, identifies **12 subfactors** across authority structure, task rhythm, risk behavior, adaptability, independence, and social interaction. These help identify the environments and team dynamics where you'll perform at your best.

This report covers 'APO', which is one of the seven components of our proprietary Auro Student Diagnostic Test, designed to help students understand themselves better and make informed stream and career choices.
