

"Success is liking yourself, liking what you do, and liking how you do it."

– Maya Angelou

## Why is Basic Values Critical for Stream Selection?

Beyond skills and interests, your core values are the inner compass that guide your decisions, behaviors, and sense of fulfillment. These values determine what kind of work feels meaningful, which environments are motivating, and how you define success. When your values align with your role or organization, you experience greater satisfaction and engagement. Our values-based framework, **PAM**, identifies **11 subfactors** that shape preferences for structure, purpose, recognition, ethics, and pace—helping you thrive in your professional ecosystem.

This report covers 'PAM', which is one of the seven components of our proprietary Auro Student Diagnostic Test, designed to help students understand themselves better and make informed stream and career choices.
